PROFESSIONAL SUMMARY

Fifth-year Software Engineering student at Addis Ababa Science and Technology University and ALX Front-End Engineering graduate. Completed a software development internship at Ethio Telecom, gaining practical experience across web development, REST APIs, database-backed applications, and mobile development. Interested in building useful software, thoughtful user interfaces, and reliable applications.

EDUCATION

B.Sc. in Software Engineering - Addis Ababa Science and Technology University (AASTU) | Fifth Year | Expected graduation: 2027

ALX Front-End Engineering Program - Graduate

PROFESSIONAL EXPERIENCE

Software Development Intern - Ethio Telecom | Bole Branch, Addis Ababa | July 2026 - September 2026

- Worked on SuperDimm, a telecom customer service and service-request management application with a web-based operations system and a customer-facing mobile application.
- Contributed to backend and REST API development, including customer and service-request functionality.
- Worked with authentication, protected routes, and role-based access.
- Developed and refined web interfaces using React, Next.js, and TypeScript; participated in developing the React Native mobile application using Expo.
- Worked with Prisma and SQLite for database-backed application functionality.
- Tested application workflows, debugged API and interface issues, and refined usability across web and mobile interfaces.

SELECTED PROJECTS

StockFlow - Inventory and Sales Management
Mobile-first wholesale inventory and sales app with stock management, customer balances, staff roles, reporting, and English/Amharic localization. TypeScript, React, Next.js, Supabase, PostgreSQL. GitHub repository

SuperDimm - Telecom Service Management Platform
Web and mobile application for customer service requests and internal operational workflows, with authentication and role-based access. Next.js, React, TypeScript, Prisma, SQLite, React Native, Expo. GitHub repository

Next - Productivity Application
Productivity app centered on manageable tasks, flexible routines, and returning to work without streak pressure. Next.js, React, TypeScript, Tailwind CSS. GitHub repository

TECHNICAL SKILLS

Programming: JavaScript, TypeScript, Python, Java | **Frontend:** HTML5, CSS3, React, Next.js, Tailwind CSS, responsive web design
Backend and databases: REST APIs, Prisma, Supabase, PostgreSQL, SQLite, NextAuth | **Mobile:** React Native, Expo
Tools: Git, GitHub, Capacitor

ADDITIONAL EXPERIENCE

Private Tutor | 2023 - Present
